Saline County is divided into three market areas for ag land. Map is located on opposite side.

Irrigated cropland coded as: 1A1 thru 4A
 Dry cropland coded as: 1D1 thru 4D
 Grassland coded as: 1G1 thru 4G

1A, 1D and 1G: soils that have the capability to produce high yields of crop or forage.

2A, 2D and 2G: soils that have the capability to produce moderately high yields of crop or forage.

3A, 3D and 3G: soils that have the capability of producing average yields of crop or forage.

4A, 4D and 4G: soils that have the capability of producing average yields of crop or forage.
